These features provide a foldable sauna which has smaller dimensions in the folded state.</p> <p>2 A flexible covering is disclosed in D3. He would have been just as unlikely to arrive at the subject matter of claim 1 if he had combined D1 with D2: on the one hand if he had provided the rear wall of D1 with the features of the side wall of D2, and on the other hand if he had not solved the problem of the compactness at the same time.</p> <p>3      Claim 1 therefore meets the requirements of PCT Article 33(2) and (3), as well as the industrial applicability requirements of PCT Article 33(4).</p> <p>4      Claims 2-13 are dependent on claim 1 and therefore likewise meet the PCT requirements for novelty, inventive step and industrial applicability.</p>
